

Opposing Lila 160, = background checks for private gun sales

According to "Guns & Ammo" magazine, Maine has the lowest violent crime rate of all 50 states. So if U.B. checks were worth a wooden nickel, how come New York, California, & Illinois, aren't topping the Low Crime List?

Last August, a gun smuggling ring in Maine shuffled 125 Glock handguns to Massachusetts. All were bought from gun dealers, and had passed a MIZICIS check!

Using phony names & fake I.D.'s, the GAO had a 100% success rate in beating the MIZICIS system, which also failed to stop Hunter Biden, who is a prohibited person!

Mainers concerned about selling a gun to a stranger, are totally free to demand a MIZICIS check under the current system.

It's rich, that those who claim there's zero possibility for voter fraud in Maine, but selling a gun to a friend, neighbor, or co-worker, is a certain deal with the devil!

These people aren't going to pay \$50 to a dealer to sell them what they already know. They'll just back date a Bill of sale. Charging a fee to exercise a "Right" was ruled unconstitutional, in "Murdock v. Pennsylvania".

MIZICIS checks are easily bypassed using "strawman sales" or the popular "phony sibling" scam.

If the state assumes everyone buying a gun is a felon, why don't they assume everyone buying alcohol is a drunk driver?

The Left's zeal for Big checks is as narrow as a whip snake. They relish harrassing some poor Jasper trying to buy a deer rifle, but have zero interest in the back story's of the millions violating our Federal Immigration laws. Like the one in my town, who stabbed his woman to death!

Mainers wisely rejected this Bill in 2016. I guess some here think, "Consent of the Governed", really means "By consent of the 'Cosco Bay Illuminati'".

Months before that vote, I researched the finances of the Pro Question 3 crowd. At that time, 99.9% of their funding had come from out of state, so spare us the →

> "Care Bears and Gumdrops"! This ineffective, unenforceable Bill is a "Trojan Horse" from the Global Elites. Their end game is to ① Backdoor Register as many guns as possible for future Confiscation.

② To Condition citizens for more intrusion into their private affairs.

③ To stigmatize Gun owners as criminal suspects.

This Bill won't solve any crimes, or reduce any dangers. All it will do is to make morally vain busy bodies feel good about themselves.

Individual Rights are not a game of "Simon Says."

It is the Right of any sane, non-felon, Maine adult to buy, sell, or trade firearms, without permission, delay, or a fee.

And in the immortal words of "Lynyrd Skynyrd," "I won't ask you about your business, so don't ask me about mine!"

### Footnotes:

Source of info on Glock smuggling ring. = Gun dealers, Rusty Brawn, = South Buckfield. @ Gauge Jordan, = Turner.

Date of the stabbing death in Hartford by the Illegal Alien, = December 13, 2018. Source = Channel 8 news

Source of Pro Question 3 Funding, = D.G. Walker.

At the end of December, 2015, their balance was \$758,340. Only \$675 had come from Maine residents! = 99.91% from outside the state. They spent 6 million more!

Lack of N.I.C.S. checks effect on Maine's Total Murder Rate, years = 1960-1967 = Total murder rate = 1.63 per 100K, guns could then be bought thru the mail, with no paperwork.

years = 2001-2014 = Total murder rate = 1.68 per 100K = All N.I.C.S. years. Source = FBI, and corrected for population growth. - D.G. Walker
