President Island Falls Free Wheelers ATV Club

I am testifying in favor of the gas tax study

ATVing has increased exponentially over the years
surpassing snowmobiling, etc. We are just looking
for our fair share of the gasoline tax for our trails.

Upkeep of trails is very costly to all clubs and
in order to maintain them up to the State's standards
it puts hardship on clubs. So any increase would
be beneficial to keep this industry going forward which
brings millions of dollars into the state.

So in closing I want to even the playing field
between snowmobiling, boating & atv and make it
fair for all. So please support this study in order
to increase funds to the ATV Clubs.
