Testimony of Rep Ann Matlack introducing

LD 283, An Act to Make Technical Changes to the Maine Tax Laws

Before the Taxation Committee

Good morning, Senator Grohowski, Representative Perry and members of the Joint Standing Committee on Taxation. My name is Ann Matlack, and I represent House District 43, which includes the communities of Cushing, Thomaston, South Thomaston, St George and part of Owls Head. I am pleased to present **LD 283, An Act to Make Technical Changes to the Maine Tax Laws.**

This bill comes from the Department of Administrative and Financial Services and makes several technical changes to property tax laws, income tax laws and sales tax laws.

The Department is here this morning to explain the need for these changes, and I would ask that you hold your questions for them as they are better suited to answer particulars.

Thank you for your time.
