I Angel M. Vinton am here to testify I'm for life. I believe every life matters. Babies children are blessing to our world. Each one of us was design for a great purpose. Each of you sitting here are here because life was chosen! I thank your parents and ~~God~~ for each of yours lives for job to make difference today and everyday you serve as state Representatives.

When children are conceived its a life a soul a spirit a living being taken physical form!

I have to tell you I considered an abortion at one point in my life. While I thought it over and prayed on it. I would weep and cry it quite frankly broke my heart and I made the choice to continue with my pregnancy. Today I have 3 of the most beautiful humans as my children and I'm beyond grateful and honored to be their mother.

Life is valuable and more precious then Gold!
I ask that you search yours and do what right.

Death is: ~~not~~ nor killing is the answer.

Thank you
Angel M Vinton

I Blake Fitzherbert believe that
babies have a right to live. They deserve to
have a life. Their hearts shall beat their brains
shall think their ears shall hear and their hands
and feet shall feel. Their eyes shall see.
They shall and should see their Mother
and father. They shall live breathe
sing and eat.

BLAXO
Mother Angel M. Vinton
