

Senator Carney, Representative Moonen, and Honorable members of the Joint Standing Committee on Judiciary:

Hello, my name is Nathan Page, I live in Eddington ME. I'm here to testify in opposition to LD-1619 because abortion up until the point of birth is murder.

Abortion has always depended on where we draw the line, at first planned parenthood said abortions would be safe and rare, then as abortion became more and more modern, planned parenthood abandoned their original idea of "rare" abortion and now they are fighting to make it legal to murder a baby at any point until birth.

Killing a baby is considered murder, why is it not considered murder to abort a baby hours before it could be born? People keep drawing these inhumane lines of when it's "socially acceptable" to murder a child. When will it stop? How much farther will they take it? What could be next? In the next couple of years we could be fighting against the murder of toddlers, murder is murder and right now it seems absurd to take the life of a newborn or a toddler but 30 years ago abortion was practically unheard of so if we give them an inch, they'll take it a mile.

Thank you for your time and consideration, I urge you to vote ought not to pass.
