

STAND UP AND DEFEND THE DEFENSELESS

If the legislators in Augusta choose to legalize the destruction of viable human babies at anytime before birth, it will be an absolute travesty being practiced in very few countries outside the communistic nations of China and North Korea.

Unfortunately, this horrific practice has already been allowed to creep into the USA. It must not be allowed to become lawful in Maine.

As the following paragraphs will clearly convey, I am absolutely opposed to abortion other than possibly in the event of a serious risk of the death of the prospective mother. Abortion is simply not only wrong but desperately wicked.

With the politics of abortion, we can't just attempt to simply wish this wickedness away. I'm sorry to have to say this but what we really must do is to get this very satanic evil procedure off our backs once and for all.

The politics of pro-abortion laws is a toxic policy denying little wee ones in the womb, truly made by God in his very own image as well as being greatly cherished by Him, the basic right to life. Such laws represent nothing more than the politics of death. We must realize that we are in this struggle together. This requires true teamwork.

By annihilating traditionally basic human rights, pro-abortion laws act in direct opposition to what really should be our

intended legislative purposes- i.e. to protect those traditional human rights. While every person since conception is a spiritual being greatly valued by God Almighty Himself, humanism has now thoroughly invaded our society. Almost unbelievably, politicians are now saying that abortion is a mere human right to be enjoyed by expectant mothers. How absolutely awful!

Having had an abortion more than 50 years ago at age 20, I'm personally able to attest to the fact that yielding to abortion is really an arrogant response by both men and women acting impulsively while in a panic and fear mode. The result is truly tragic as the life of a wee one known by God since He created the universe has been ended- the life of a wee defenseless one who will never be able walk the earth while patiently seeking God's purpose for his or her own life.

We must stay focused on the fact that unlike us, aborted wee ones can never live to appreciate their God given rights, learn about God's absolute holiness or even how to take personal responsibility in all things as they hopefully progress through life to a ripe old age. Therefore, what we must loudly say as a coordinated chorus-and in a loud voice far and wide across this mighty nation of ours is this: **KEEP YOUR EVIL HANDS OFF FROM ALL UNBORN CHILDREN IN THE UNITED STATES OF AMERICA.**

Freedom to Choose Life

Because of the horrendous Roe v Wade decision forced on the entire U.S. citizenry on a nation-wide basis by a totally misguided U.S. Supreme Court in 1973, and which had absolutely no basis whatsoever under the U.S. Constitution, the number of shamefully aborted little babies in our nation increased by many, many millions of souls over the last five decades.

Thankfully, now that a recent and very well-grounded decision by the U.S. Supreme Court has vacated Roe v. Wade, we now can debate any possible merits that some think abortion can offer versus various alternatives to abortion that are even now currently available- alternatives which can furnish badly needed support to those who suddenly find themselves in deep trouble.

Being no longer incumbered by Roe v. Wade, we are back to where millions of people spread across this mighty nation previously were - i.e that God made both males and females in His own image, that life truly begins at conception, and that all human lives are sacred and must absolutely be preserved.

Unless you agree with those who believe aborting or killing a child at one's convenience is okay, kindly contact your legislators to let them know that abortion is unthinkable, that it should no longer be lawful and that Maine must absolutely not become a sanctuary state for any abortions- let alone become a state that allows the abortion of babies right up to birth, a death which is nothing but infanticide. **Judy Dean, Perry**
