

My name is Eli Clark from Winslow Maine.
I may only be twelve but I know right from
wrong, This Bill would allow a nine month old
fully functioning about to be born child get killed.
What would your twelve year old self think of
you if they knew you would let a nine month
old child be killed. Think back to when you
were twelve like me, would you, being twelve
want a child to be killed all for the convenience
of the mother and father? Don't let yourselves
allow murder to happen at the mother's and
father's finger tips. Do you have a brother or
sister? Imagine your mom is pregnant, your
parents have already named your brother or
sister, you are so excited to have a younger
sibling, and then your parents kill your sibling
before you could ever even see him
