An act to improve Maine reproductive
Privacy Laws.

my 1st thoughts.

were not God honoring.
As you will here they were very
evil & depraved thoughts.

Why didn't Janet Mills,
Rachel Talbot Ross's and anyone else
who supports this bill mother take
advantage of this bill when they
were in their mother womb.

This would have definitely improved
Maine.

They didn't because they wanted
the child in their womb, they didn't
because they loved the child in their womb
they didn't because they knew that ~~it~~
~~was~~ a child in their womb, they
didn't because they knew it was you.

Science has proven that babies
in the womb can hear.

I can hear you say, Mom you
have a wonderful singing voice,
and I love your stories,
what I don't hear you say
is, what is an abortion?

Many millions of babies have
ask their mother, what is an
abortion, and when they find out
they were being ripped from their
mother's womb.

~~I don't~~

4 black babies ~~are~~ find out
what abortion is before one
white baby does

out of 10 million, 8 million
black & 2 million white
