

SPEAK UP FOR LIFE
LD 1619

May 1, 2023

In early 1950 there was a young woman who found herself pregnant.

She was in College for a business degree. The Father was a married man with children. She had severe epilepsy with Grand Mal Seizure's. Unable to care for that infant she gave him up for adoption. That child was me. My biological Grandfather was opposed to that decision and wanted to keep me in their family but the decision was up to her. The adoption took place and I was loved & blessed by my new family. I continue to live a full Life.

LD1619 is severely offensive to me and it's taking us backwards.

infanticide is barbaric & wrong. Is this your Final Solution by legalizing Late Term abortion. Please oppose this bill. LD1619 is not for Mainers.

Thank You for your time. David W. Whitehead
