

Let The Babies Cries Be Heard

Louise Farrand Decoteau May 1, 2023

Child sacrifice is nothing new. For thousands of years children have been sacrificed to the gods of the underworld. It even happens today with human trafficking. Evil forces gain power from their blood sacrifices. These demonic beings come to steal, kill, and destroy. They are very good at deception. They are good at convincing you that what you are doing is acceptable and you have a right to choose life or death for your baby.

Our nation has become numb to the grim realities of abortion. We have become convinced that the unborn can't feel pain, but we know through the reports from Dr. Ben Carson, a Neonatal Surgeon who operates on unborn babies, that unborn babies feel pain very early in gestation. He reports that surgeons can even give anesthesia to the unborn babies during surgeries so they won't feel pain. Why in God's name would anyone want to hurt them?

Consider how complex human anatomy is. It's astounding! There are doctors trained in every part of the body. It's a miracle! If you have a problem with your vision, see an eye doctor; your foot? see a podiatrist; your heart, a cardiologist; your back, a chiropractor! You get the idea. We're complicated and God created us this way. Every egg and every sperm cell joined together is a miracle! The genetics are all there at conception! Every chromosome and gene tells the little human what it will look like and how it will function. It's all there!

Let me tell you about my wonderful little granddaughter.

I have the most incredible ultrasound of her yawning in the womb. I wish I could share it with you. She's yawning! It's absolutely wonderful! My first words upon seeing this were, "Oh My God!"

I have another video of her as a 1 year old swaying and smiling to a musical greeting card that's playing Louis Armstrong's, "And I think to myself, what a wonderful world." I wish you could see her happy little smiling face. She's awesome!

Finally, I wonder if any of you have attended a funeral hoping that your loved one would be in heaven. If so, you have hope of eternal life, right? Moms, dads, aunts, uncles, friends and family are heaven, right? We hope, right? We somehow know that eternity is infinite! Our mortal bodies are finite, and we have an expiration date, but the soul is infinite and has eternal life! Those who choose abortion are determining where your soul will spend eternity. That's right! Not only are you killing babies, you are choosing where your soul; your mind, will and emotions, will spend eternity. Other souls will be affected by your decisions too, if you choose to allow abortion up to the time of birth. Not only will babies die, those who participate in taking the lives of unborn babies are in jeopardy as well. Doctors, nurses, hospital staff, friends and families.

Legislators, you have the most important decision of your mortal lives and your eternal lives. You must not allow our great state of Maine to allow abortion.
