This message originates from outside the Maine Legislature.

Dear Susan Pinette,

I am writing with regards to LD 1619, for which there will be a hearing on Monday, May 1. I wish my feelings to be made known to the committee that is dealing with this matter that I am NOT in favor of abortion, and especially late term abortion. Susan, it makes no sense to me that I could bear a child on Tuesday, but on Monday I could have killed that same child! I would hope that each committee member would consider their own children and ask, "Would I have aborted this child?" or "What if I had aborted this child?"

I have not figured out how to send an email to these committee members (technology and I don't always get along!), so I hope this can be passed along.

Yours Truly,
Patricia DuBrule
