

My name is Maris Wallinga from Old Town, I'm here to represent the depopulating youth here in Maine.

This bill is barbaric and extreme, it has been made clear tonight that the people don't want this bill.

Immense tragedies happened to the African Americans and Jews because they were looked at as less than human. Nationality and the color of one's skin not making them a human is just as absurd as what side of the birth canal they are on. Please be on the right side of history today.

Proverbs 31:8

Maine doesn't want this bill, this bill ought not to pass, vote against LD 1619

Thank you, God loves you all
