

Hello Madam Chair Person and Representatives.

My name is Eli Clark from Winslow Maine. I may only be 12 but I know Right from Wrong. This Bill would allow a nine month old fully functioning, About to be born child get Killed. What would your 12 year old self think of you, if they knew you would let a 9 month old child be Killed? Think back to when you were 12 like me. Would you being 12 want a child to be Killed all for the convenience of the Mother and father.

Please don't let this Horrible bill pass. Do you have a Brother or Sister? I have 1 of each. Imagine you mom is pregnant, your parents have already named your baby Sister, you are so excited to have a younger Sister and then your Mom changed her mind at the last moment, and in a moment of Fear she kills your little Sister before you could even meet her. Please Think about it before you legalize Murder in Maine.

Thank you for letting me speak
