

Good morning. My name is Hailey Collins from Portland.  
I am here to testify in opposition to the bills before you.

I wanted to start by sharing a song with you...

The Life You Give Us, Hailey Collins

Life, you give us life  
You breathe it into us, you give us life  
You do not need to, but how you love to  
To give us life  
You walk with me here and in eternity  
You give us life, you give us life, you give us life

I was not just a second thought  
You were not just a second thought  
They are not just a second thought  
You give us life

Life is a miracle. You are a miracle. They are miracles. Let them live.
