Wandalee Rondon oppose LD1619

I am here to speak for life. Those to your left, as well as to your right, have life in them. Life starts in the womb. As mothers, we have felt our babies alive within us by their kicks. Same goes for our mothers; feeling our kicks within them. Imagine, those sitting beside us gone due to abortion and a gravestone is in their place. Our opponents and colleagues alike. If their mothers, your mother, my mother, and myself chose abortion. LD 1619 is a death sentence. LD 1619 takes away the unborn right to live. Reconsider the number of future Mainers if you go through with LD 1619.
