Public Hearing

Hello,

My name is Nancy Lawrence and I Reside in
Readfield, ME.

I appear to this committee and to all who promote
LD 1619 to Reconsider and Vote No to the Slaying of a
person in the womb for that is what abortion is.

There is no justice in the spilling of innocent blood
to those who have committed no crime. The passage of LD 1619
would be immoral as it is reprehensibly evil at its core.
For those who would pass this infernal bill into law
gives Rise to the very basest within us. It is a two
edged sword - inflicting pain and immeasurable torment
upon an innocent child and the one inflicting such pain
it's executioner.

We beat our breasts and Lament over Hitler's
Germany in the 1940's and ask incredulously how could
such a thing have happened under the watchful eyes
of friends and neighbors of the Jewish people. How
were they just taken from their homes, placed on
trains and taken to concentration camps to be exterminated
It was September 15, 1935 when the Nuremberg laws
were enacted in Nazi Germany during a Rally of
the Nazi party - Was it just? No - Was it legal?
yes, It was now legal to arrest and do violence against
the Jewish people and 6 million Jewish lives later
we know the rest of the story.

LD 1619 is our Nuremberg - no less an
atrocious or holocaust.

Please Vote No on LD 1619.

Thank you,
Nancy Kennedy Lawrence
