

my Name, Address etc.

Robert Wallace  
Gardiner Maine

LD 1619

I find it difficult to stand here and find the words to describe the kind of shenanigans that ~~are~~ is going on behind these walls of government today.

The insidious, incremental steps being taken once again to further deprive unborn children of their lives.

This newest attempt to murder defenceless babies right up to the day of birth would have been unimaginable just 50 yrs ago. But today its common place thinking - especially among the Democrat party.

LD 1619 is too similiar to what came out of Nazi Germany in the 1930's and we all know what the end result of that was.

First of all, in America, the Constitution is still the highest law of the land, and any law that goes against it is No law at all. Every member of this legislative body ~~swears~~ swears an oath to God to uphold + defend it, yet, once in power breaks this oath and devises ways to circumvent it. LD 1619 is a perfect Example of it.

We are in a real battle, but it is a spiritual battle, a battle between ~~good + evil~~. The forces of good and those of evil. - We cannot let evil win, ever. We must stop this evil bill, concocted by evil minds and promoted by evil people in power. Lets be honest and call it what it is. Thank you
