Hi Justine: I got this text. Would u enter into the record. Thanks, Lynne

“Morning Lynne, obviously we have never met, but I understand you are on the transportation committee. I am strongly opposed to removing rail infrastructure and use of ROW for trail advocates without a very thorough analysis of future transportation possibilities. Ruac process was a predetermined sham and an embarrassment for DOT. They should know better. The taking of a right of way built for rail is a selfish grab by a special interest group serving a fraction of the population. That is a “taking”, a theft. Time and money should be spent for rail accommodating trail where possible. Thanks for your time, John Koons, Waterville “
