I have a simple question, are you trying to turn this beautiful state into California? Do you know the definition of a woman? Do you think it is ok for a 14 year old to have her healthy breast removed because she may be confused or maybe just gay. You really think a child is capable of making these decisions that impact the rest of their lives. Now you want to make it ok for some adult to just bring them to our state to hide out as cowards to try to turn them into something they are not. I am sickened by all the democrats pushing this extreme ideology.

Kind Regards,  
Julie Lord
