

Dear Esteemed Leadership of Maine,

My name is Laurice Baddour, and I am a missionary, representing the multi-millions of women, men, and children, all across the world, who are suffering from deception, lies, and devastated lives. Mainers are crying out for our help, and are depending on us to speak truth, bring forth justice, and save their emaciated lives.

I travel the nation, including to violent college campuses, educating, counseling, comforting, speaking up, and speaking out about the beauty of all human life and ugliness of the multi-billion dollar propagandized narrative that hurts, not helps, Mainers. We are each responsible to be our brother's keeper, and we have put you in your seats to fully represent us and to fully protect us, with the facts in hand. We are each entitled to our own opinions and worldviews, but we are each not entitled to our own "facts".

It is a fact that abortion destroys not only the life of the unwanted, victimized, sub-humanized, sub-personified child, but it also destroys the life of the mother, father, grandparents, family, and society. Take an unbiased look around you. Look at the undeniable unprecedented mental health conditions, addictions, physical conditions, diseases, height of depression, increased suicide levels, hatred, self-loathing, self-mutilation, violence, regrets, and broken relationships that post-abortive Maine women, men, children, and families are suffering through, due to intensely rancid ramifications of a reprobate rant. Of course, I am referring to the so-called "My body, my choice", "womens' health", "reproductive rights" reckless movement, and its whole host of falsehoods.

Come with me to Maine college campuses, and watch the violent and hopeless reactions of students who have had or support abortion, when they are faced with the facts, not the fiction. I talk with students who work for Planned Parenthood, brain-washed to avoid me; yet we have meaningful conversations, once they realize that I truly care about them. Stand with me, as I listen attentively, and hear students' heart-wrenching stories of their own abortions, or the abortions of their family members or friends. Some students even refuse to leave their dorms, choosing not to argue the unarguable.

I am representing the countless Mainers who have been victims of the blood money that lines the pockets of Banned Parenthood/Planned Barrenhood and their cohorts. How about you? Are you talking with these Pine Tree Staters of collateral damage, 10+ years later, who once hailed abortion, only to now "hell" it, because their lives are ravaged by rhetoric? Are you talking with their broken families? Sit with me, as I hold people crying in my arms, 50+ post-abortive years later. Could you be one of them, but have refused to speak up?

The good news is that forgiveness, healing, and restoration are real, and can be available to anyone. But this is only possible when abortion is fully exposed for its abomination to humanity. Take a stand for the truth, not the traps, even if you are the only one, or the last one, standing. I have done such, without a penny in my pocket, and with "a bloody nose". And you? Mainers voted for you to "take the hit", legislating justly. We thank you in advance for doing so, today.

*Laurice Baddour, Sagadahoc County*
