**This message originates from outside the Maine Legislature.**

To whom it may concern -

I'm writing to express my support for this bill, LD2101. I've watched some property on Sebago Lake be destroyed because people (the property owner(s)) with deep pockets feel the laws don't pertain to them. Then, once called out on their actions, they claim ignorance or "pass the buck" to contractors/workers they've hired to do the illegal work. These people assume or hope that the small towns will "drop the matter" or give up because they don't have the funding to support all the legal costs associated with fighting the issue(s).

If this bill is NOT passed, it sends a very clear message, that if one has enough money, they can do as they please, even if it means breaking the law and zoning ordinances. Please hold these people accountable for their actions and repayment of legal fees. Our lakes and state are for all to enjoy, not exploit. Please help protect our beautiful state of Maine and it's natural resources.

Please let me know if I can offer any more support for the passing of this bill.

Sincerely,  
Sara Cusson
