To whom it may concern,

As a tax paying resident of Raymond, Maine, and a lakeside resident on Sebago Lake, I am very concerned about the coastline and environmental care to our lake. I am also strongly in favor of the state of Maine assisting municipalities in their prosecuting of code offenders. This is a state lake governed by state regulations in part. The state can easily recoup expenses from the fines imposed.

In a side bar I would also like to state that I find it absurd that a property owner can seek and attain a permit for work on their property while they are in litigation for a code violation!

Thank you for your time and please support this bill.

Sincerely,  
David Moeri
