**Subject:** LD2101 An Act To Strengthen Shoreland Zoning Enforcement

**This message originates from outside the Maine Legislature.**

The Maine Legislature:

I have been a resident of Raymond (ME) for over fifty years. Although I do not have lake front property, I am concerned about keeping our lakes clean and free from pollution for all who live or visit the Lakes Region. I also have a business here and my customers come from all over to enjoy our clean lakes. We need to have enforcement for strengthening shoreline codes. Now is the time to do just that by passing LD2101.

Thanks you,

Joyce Mastro
