Subject: LD 2101

This message originates from outside the Maine Legislature.

Please support this bill. No one should willingly and intentionally cause damage to our precious environment. If they do they should be punished to the full extent of the law hopefully which will include some new additions such as LD 2101. Protecting Sebago Lake is essential on so many levels. Please stop insensitive, uncaring people who are too selfish to understand.

Thank you in advance for your consideration,

Barry Butler
