This message originates from outside the Maine Legislature.

Hello,

My family has owned a summer house on Raymond Cape for two generations, around 60 years. In that time there have been many changes and significant development along the shore of Sebago Lake. When done carefully and respectfully it will allow generations in the future to enjoy the beauty of the area. However, recently there has been a shift away from that respect to more self serving and expedient development. I am very concerned that if this behavior continues we all will lose an irreplaceable resource. For these reasons my family and I support the passage of bill LD 2101.

Best,
Nancy Hannett
