Subject: LD 227

This message originates from outside the Maine Legislature.

LD 227 is a Frankenstein monster and it must be stopped dead in its tracks. It is an absolute abomination and a full-frontal assault on children and parents. It's child mutilation, without consent of the parents, and protects the mutilators. It is the most abhorrent legislation I've read in the State I've called home my entire life. This bill is pure depravity and an enemy of life itself.

Please do not let this bill advance.

Scott Fortuna
