Subject: About LD227 my opinion is to vote No.

This message originates from outside the Maine Legislature.

To whom it may concern,

I have watched the transgender agenda with disbelief and horror. Our children's innocent minds are being manipulated to the point they don't know who they are. They are told to feel happy, to fit in, the way to a better life is to change from being a boy to a girl and a girl to a boy.

Do you think that taking hormone replacements medications for life or more drastic and harder to comprehend actually surgically removing a girl's breast or a boy's penis is good medical practice? Will this improve their life? This is not about the health and wellbeing of our children. You know the studies; depression is higher as is suicide. This does not support good medical practices Do no Harm.

Our children need to be protected, to be loved and learn to love themselves. This bill is awful. I am a Maine resident and if I had the opportunity to vote myself, I would clearly say No. I encourage you to Vote No on LD227

Sincerely,
Sue Cullen
