This message originates from outside the Maine Legislature.

Dear Committee Members, I am writing in opposition to bringing LD 227 to a vote in the House. Firstly it is not health care but would allow for surgical and chemical mutilation of minors (permanent disfiguration they would regret for the rest of their lives) the cancellation of parental rights, the practice of unlicensed physicians and would set off a fire storm of litigation stretching out for years. It would result in such a corrupting and perverse blot on the soul of this State it would hardly be able lift its head from the shame. No one in their right mind would want a bill like this. Still you have tried to deceive the people by giving them a day or two to prepare public testimony. You will see me testify and I will not mince any words.

Grace and Peace, Mike Karnas
