

TESTIMONY BY STEPHEN SCHRAN

LD227

LISBON MAINE

Having lived in Maine for the last 50 years and retired from the Public Schools after 29 years as a music educator, I can now say with all honesty, the state of Maine and the Public Schools have become a cesspool of corruption beyond belief! How could Rep. Anne Perry, the sponsor of the Bill LD 227 believe that this evil Bill is right for any child living in our state when she has been working in the medical community as a nurse for several years?

Here is a quote from Rep. Reagan Paul: " LD 227 is a full frontal assault on the sanctity of life and parental rights. Its goal is to make Maine a sanctuary state for child mutilation and abortion until birth and shelter those healthcare providers who do irreparable harm."

There is no way a parent can send their child to a Public School and expect to not have their child become brainwashed with the gender identity and then eventually be told they need surgery to change their gender! The public schools are now a CESSPOOL of so-called gender affirming care which is absolute brain washing the innocent child.

THIS MUST STOP AND LD 227 MUST BE BURIED NOW!!

Even if parents remove their children from the public schools and home school, the state of Maine will be responsible for destroying the mind of an innocent child.

TRASH LD 227 NOW
