Dear members of the Health coverage, Insurance Financial Services

I am against LD 227 Extreme Abortion and Transgender Bill

IT is hard to believe that mankind is willing to do these atrocity's to children.

Abortion is the direct and intentional killing of a child in the womb.

Transgender Changes should not be allowed in Maine.

Maine dose not need to become a Sanctuary State for these Atrocity's.

How can you force Insurance company's to pay for this foolishness.

There is big money being made.

God is the judge.

You and I will be held accountable for our actions.

Are you ready for that point in time?

Remember God is Love.

*Thank you for your time.*
