

REB
To the Judiciary Committee, *Rep Perry, Sen. Bailey*

Good afternoon, I'm Pastor Randy Brown and I'm opposed to LD 227 and 1735:

The Committee and Bill Sponsors have outdone themselves on their race to the bottom with unrighteous and immoral bills, rivaling California and New York. By calling LD 1735 "gender-affirming" and talking about it as "necessary health care", you deceive God's precious creation, the misguided gender dysphoric. In your ideological proper gander you float the idea that these poor souls' lives would be so much better if they would subject themselves to unnecessary and harmful surgeries and trying to keep secret the testimonies of detransitioners.

Not only do these depraved bills harm PEOPLE, people with living souls, it also allows for depersonalization of the populations that are undergoing emotional and psychological stress, taking advantage of them and enables surgeons and hospitals to benefit financially.

And making it legal ensures you can force your agenda of death and destruction to viable HUMANS against all laws of God and Nature.

Thank you for hearing my testimony,

Randy
