New Gloucester, Me.

Testimony of Diane Elvin

Against LD 227

LD 227 makes both “gender affirming Health Care services” and “reproductive Health Care services” a “legal” right, and interference with this right “whether or not under the color of the law” is against state policy.

To Senator Bailey, Representative Perry, and Committee Members.

I oppose LD 227 because I care for this state. I have lived in Maine all my life, raised 4 children and now have 13 grandchildren. To make this state a sanctuary for Abortion and Gender mutilation procedures is terrible. Having raised children I am aware that teens and preteens are not capable of making such life changing decisions. Peer pressure and hormones make this impossible. Most times these thoughts and whims are just passing thoughts that are outgrown with time.

Thank you for hearing me out, and I would respectfully ask you to vote against this bill, LD 227.
