

Hi my name is Artur, I'm tech support at Bank and I'm against the bill Id 227 this is absurd, an attack to the family and above all it's complete disobedience of God commands " Génesis 9.7" where the order is to be fruitful.

We said in God we trust, we print it in our money yet the question today is what God? We hold a law book in the courts and we ask those under judgment to tell the truth nothing but the truth and today I ask, is this bill fit in the truth?

Is it right that our kids who are not allowed to drink, get a tattoo or be outside without an adult due to so much prey out there have been told that they can do whatever they want to do?

God made everything perfect but human beings are turning everything upside down by accepting the devil to lie to their hearts and telling them to do all these abominations, I not just testify against the bill but I also want to let all know that God will punish not just the evil but all those who commit evildoers.

We have to think about in every decision this law is against the LORD ALMIGHTY GOD we're defying the LORD and certain his wrath will come, I urge while we can and stop what we are doing, what was wrong decades ago still been wrong today.
