Testimony  
Bill: LD 450

Hello.

Thank you for considering my testimony.

Below are a few of our CMP bills for the months of January and August 2021 to present (showing a sample of winter and summer months). This is for an 1100 square foot 2 bed, 1 bath home.

2021	January	\$92.42	August	\$ 82.74
2022	January	\$76.88	August	\$183.69
2023	January	\$139.27	August	\$352.96
2024	January	\$275.28	August	\$305.72
2025	January	\$187.66		

It has been frightening to watch our bill climb precipitously, especially after health issues necessitated the breadwinner of our household to go on disability. Please stop subsidizing solar energy. If it is good for Maine, let it stand on its own financial merit.

Thank you,

Martha Howard  
Auburn
