This message originates from outside the Maine Legislature.

I'm writing to urge the members of the committee to vote against the proposed legislation. The idea that coyotes need to have restrictions on hunting so that they may thrive is fallacious. They exist in great numbers outside of metropolitan areas and their population thrives. Allowing them to become more numerous would be detrimental to Maines deer herd. It may also be harmful to domestic animals and pets. Please consider the effects of passing this legislation and vote against it.

Thank you  
DAVID DABROWSKI
