To those who are meeting to discuss the safety around metal mining. I agree with the proposal and I am writing to implore you to do everything in your power to keep Mainers and this state safe. I'm writing because I'm very concerned about health issues and also the ecological damage that this mining will cause.

Please, if you can stop them please do but otherwise please insure in our safety and a statute that states if this becomes a toxic nightmare that it be shut down immediately.

Thank you, in advance from a concerned citizen in Bath Maine.
