This message originates from outside the Maine Legislature.

Hello, I'm writing on behalf of LD174.

Passing this would benefit our family beyond words. Our family has seen the difference in our childrens' health drastically after pausing vaccinations and seeing other children their age struggle with chronic illnesses after being fully vaccinated. We are currently a one income family, and my partner has had both physical and mental health issues the last two years affecting his ability to work and fully care for our children. We had planned to homeschool our children but it is becoming increasingly more difficult to find ways to keep up with finances. We are a spiritual family and it would greatly benefit our children, family and community to be able to uphold our deepest values while being able to send our children to school.

Thank you,
Gabrielle McMahan
