

## Testimony Block 2 April 16<sup>th</sup> Judiciary Committee

Good afternoon, my name is Gregory Hunnewell from Belgrade, Maine

I am testifying for ~~LD1104~~ and LD1174, I believe both can be good bills if the language reflects protection and clarifications. Both bills need research as to how one determines ownership of a firearm that is being held and how one might determine whether the person the weapon is being returned too is prohibited. I would also ask that you reference my son Dana Hunnewell's testimony on LD ~~1104~~ <sup>1174</sup>, he asks a lot of very good questions. Please vote for both bills as Ought To Pass. 1104

### LD 1120 An Act to promote the Safe Storage of Firearms

I am totally against this bill, what I do in my house is none of your business, and then to criminalize what I do goes way beyond in the overreach department. Those of you that feel you don't need quick access to a firearm for protection in your home, I wish you luck. But please keep your nose out of my business, my rights, my home, hell no. Please vote Ought Not to Pass.

### LD 1299 An Act to Prohibit the Unsecured Storage of Handguns in Motor Vehicles

This is another example of politics putting law abiding citizens at great risk to bodily harm or even death just to make someone feel good. If I am in a posted property and return to my vehicle and someone follows me I am going to need very quick access to my gun, you are again putting me and whomever may be with me at great risk to harm. My rights, my vehicle, hell no! Please Vote Ought Not to Pass.
