

Testimony Block 1, April 16th Judiciary Committee

Good morning, my name is Gregory Hunnewell from Belgrade Maine, and I am again here defending my right to own a firearm, my Constitutional right.

LD 208 and LD 1230 are two bills that are trying to right a wrong that was allowed to become law last year when the Governor failed to do the will of the people and veto the bill. Allowing the bill to become law without a signature shows lack of commitment to the people of the State of Maine. This law is costing the taxpayers of the State of Maine a great deal of money in legal fees and it's time to make this intrusive law go away. I ask that you as a committee vote on these two bills as Ought to Pass.

LD 1062 An Act to Eliminate Background Checks for Private Sales of Firearms. This as amended cleans up some questionable language that is in the law that is not needed is it can be misconstrued. I urge you as a committee to vote this bill as Ought to Pass
