

Chair Lawrence, Chair Sachs and Fellow Energy Consumers of the EUT Committee

I oppose LD 1868 **An Act to Advance a Clean Energy Economy by Updating Renewable and Clean Resource Procurement Laws**.

This bill is yet another assault on electricity bills justified in the name of chasing down carbon dioxide molecules, which are doing no harm to our planet and I have the numbers to prove it.

Clayton McKay    Dixfield, The Only One

2024 Long Term Contract Costs to Ratepayers ( Not Including Administration Costs)

Contract With:	Utility	Resource	Cost
Athens Energy	CMP	Biomass	\$3,797,160
Georges River	CMP	Biomass	\$3,346,895
