

May 9, 2025

Good Morning Senator Ingwersen, Representative Meyer and esteemed members of the Health and Human Services Committee,

My name is Mark Tasker, I am a resident of Dexter, and I am here today to testify in favor of LD 1843 "An Act to Provide Peer Respite for Individuals with Mental Health Care Needs.

If Respite had been around before my sister committed suicide, after she found our other sister murdered it may have saved her life. We just didn't know how or where to get her help, I believe she would have been willing to go to a place like this to help her collect her thoughts and remember what life is really about. She would have been able to process what happened to our sister, work on her future goals and be reminded of who really cares/loves her rather than focus on how to end it all.

I think if Respite is in place this will give people a place to go that are on "The Edge" to be able to collect their bearings and focus on the future and their goals before things get so bad they either need a mental hospital or choose to end their lives.

In closing I urge you to pass LD 1843.

Thank you for your time and consideration.

Mark Tasker

Dexter
