

Hello👋 , I'm Ashlie Cruciotti and Thank You for meeting today. I'm a RIC Card holder and do believe my information should be private. I work closely in our grow, around our community and help run our Family Medical Retail Store Front . I'm here today to stand with this industry and block bills LD104 and LD 1847. These bills alone would destroy Maines Cannabis Industry that we have all worked so hard to come this far. I support fair and reasonable rules for caregivers and patients of Maine. Protection for this wonderful program that has helped so many heal and thrive is what is asked all around . I take pride in assisting in clean Medical Cannabis and know how important the process to get those results are. I have seen the positive effects Medical cannabis has helped with in our community as well as out reaching communities, from CBD for their animals or to even help manage symptoms of epilepsy. A simple salve for a migraine , a little Rick Simpson Oil to help the symptoms of Evil Cancer, I have assisted in our veterans and community members on recovery from addiction or sometimes it's just a jib at the end of the day to ease Pain and help sleep the possibilities are endless of what this plant can help with. It's not for everyone and I understand that, but those who need to benefit from Cannabis should always be able too. I don't think paid pockets and crushing agendas against Cannabis are the right ways to make these bills. We are here to work together, we are here to educate and we are here to learn and grow. Please do this with us let's work together on bills to keep Maine cannabis alive and to prosper. Bills LD104 and LD1847 would financially crush the industry. I look forward to working together for the future of Cannabis in Maine

Communication is vital but Comprehension is key.

Thank you for your time 🙏
