Subject: Testimony for Id 1717

This message originates from outside the Maine Legislature.

Good morning senator Hickman supica and distinguished members of the veterans and legal affairs committee. I'm writing to testify in favor of Id 1717 an act to do back ground checks on medical program. I see this as a positive thing to do. It will improve the program with quality participation. I believe this is a start to keeping bad actors from being able to obtain a license. I do see two Likes that needs redacting though. Line 41 and line 42 could create some issues. So provided we were to make those lines disappear I think it's a solid bill that will protect patients and the program. I thank you kindly and if you have any questions I'm always available for a phone call. Thanks kindly Scotty
