Testimony of Rep. David Boyer introducing  
**LD 1831, An Act to Support Small Adult Use Cannabis  
Businesses by Establishing a Micro Cannabis Facility License**  
*Before the Joint Standing Committee on Veterans and Legal Affairs*  
May 8, 2025

Senator Hickman, Representative Supica, and esteemed colleagues of the Veterans and Legal Affairs Committee, my name is David Boyer, and I am proud to introduce LD 1831, An Act to Support Small Adult Use Cannabis Businesses by Establishing a Micro Cannabis Facility License.

This bill would create a micro license which would allow small cultivators to be vertically integrated. This means they would be able to cultivate, manufacture, and retail cannabis, if they are in a municipality that allows for it and they are zoned accordingly. This is similar to how caregivers are vertically integrated in the medical program.

This would save small operators thousands of dollars on license fees every year. Additionally, it would exempt small operators from the adult-use excise tax. Right now, the excise tax is one of the biggest reasons medical operators have chosen not to transition into the adult-use program. I would argue that state revenue would increase if this option were available, as it would encourage more participation in the adult-use cannabis industry.

I appreciate the committee's time and consideration on this matter. Thank you.
