LD 1968: An Act to Amend the Laws Regarding Legislative Reimbursement

Testimony of Rep. Matt Moonen, Portland

May 19, 2025

Good morning, Senator Baldacci, Representative Salisbury, and honorable members of the Joint Standing Committee on State and Local Government. I am here today to present **LD 1968: An Act to Amend the Laws Regarding Legislative Reimbursement**.

This bill proposes a few relatively simple changes to our laws governing legislative compensation:

- 1) It removes specific dollar amounts that legislators may be reimbursed for meal allowances, travel-related expenses of a meal allowance, and housing allowances and instead provides that the rate of these allowances must be set by the Legislative Council. The bill specifies that at least 6 members of the Legislative Council must vote in favor of the allowance at the beginning of the first regular session in a legislative biennium, and that the amount of the allowance set by the Legislative Council may not exceed the regular federal per diem rate for lodging, meals and incidental expenses.
- 2) The bill clarifies that for the purposes of allowances for mileage on days that the legislature is not in session, daily mileage is calculated from the legislator's place of abode, determined by the most reasonable direct route.
- 3) The bill amends the provision governing the salary owed to a person who replaces a member of the Legislature who has died or otherwise vacated the office. The bill provides that the successor is entitled to a salary from the date the successor is seated equal to the salary that would have been afforded to the successor had the

successor been seated at the start of the biennium, except that the salary must be prorated from the date the successor is sworn into office.

Thank you for your time and attention, and I hope you will join me in supporting this bill.
