

Nancy Hathaway  
Surry, Maine

Testimony in support of LD 1730

To the Committee of Energy, Utilities and Technology:

I appreciate your time dedicated to helping the people of Maine.

My understanding is that this bill will support the use of plug in solar panels.

For years I have wanted to use solar panels and am excited that with the passage of this bill, that the possibility of plug in solar panels will not only be possible and supported, but most likely easier to buy and connect.

I am looking for ways to decrease my cost of electricity. Solar panels will aid in my use of especially heat pumps being more affordable.
