Dear Senator Carney and Members of the Judiciary Committee

Please support LD2106.

We all know that ICE agents are arresting immigrants with no regard for their legal status, and without warrants or providing their own identity. Many innocent people have been detained and shipped to destinations unknown to family and friends. Detainees include an innocent five-year- old child. Recently two innocent people have been killed. This kind of violence, cruelty, and total lack of respect for our fellow human beings is absolutely opposed to the American way. It is tragically reminiscent of Gestapo action in Nazi Germany.

Immigrants in Maine are in almost all cases, our friends, relatives, coworkers, and supporters of our businesses. They care for us in hospitals and nursing homes, and in my case, drive me to appointments in Lyfts and Ubers.

PLEASE vote YES for LD 2106.

Sincerely,

Ann R. Carman
