Hello!

I am emailing in support of natural medicine and the wonders it can achieve within the human body. I have first handily experienced thoughtful and intentional care that was tailored specifically for me throughout my treatment. We are still continuing to change treatment stratifies as pieces of the puzzle become more present. The use of many modalities has allowed my doctor to come from all angles for best healing results. Allowing more of the modalities will continue the broad range of treatment for many patients like me. It's legislature like this that sets Maine apart from other states and adds to the quality of life and patient care of our fellow neighbors. Maine is hardworking and deserves natural and effective treatment to keep us moving and happy!
Please support Maine!
