This message originates from outside the Maine Legislature.

Good Morning,

I am writing in support of the bill that is currently with the Maine legislature to expand what naturopathic doctors are allowed to prescribe and the types of IV therapies that they can offer.

Naturopathic medicine has been life changing for me as a woman who struggles with PCOS and infertility. Dr. Cornia Dunlap of Portland was able to help me conceive my now almost 2-year-old daughter, after a year of struggling with infertility and pregnancy loss.

I know that expanded access to resources would only make naturopathic medicine in Maine stronger. Thank you for your time and consideration!

Thank you,
Aurora
