Subject: Support to the Maj Substantive rules provisionally adopted by the complementary healthcare providers

This message originates from outside the Maine Legislature.

I work locally as a hematologist-oncologist and I support the naturopathic formulary that has gone through committee and was signed by the AG as it is currently written.

In a state with a community that suffers from lack of quality medical providers, relying on our quality naturopathic providers (who have been an invaluable asset to my cancer patients) will serve a huge unmet need.

Please support the rules as provisionally adopted.
